

Christopher Muzzin

Little Rock, Arkansas | 469-682-1710 | chrismuzzin1020@gmail.com | chrismuzzin.info

Education

Computer Science | College of Engineering – University of Arkansas | 3.1 GPA

Experience

January 2016 – Present

Front End Developer | Dillard's Inc. | Little Rock, Arkansas

Embedded in multiple agile teams working closely with developers, business analysts, and QA's to build consistent, usable, and logical interfaces for users.

Created initial wireframes, provided updated high fidelity mock ups as the project progresses, and built out applications using HTML, SCSS, and JavaScript. Involved with refactoring legacy applications using new front-end technology and oversaw google tag manager / analytics to track and improve efficiency for users.

Personal Projects

August 2017 – Present

Personal Website

Design, code, and maintain my personal website to practice modern web practices.

August 2017 – Present

My-Spotify

A web application that utilizes Spotify's API and demonstrates a lot of functionality found on the Spotify web player.
