Christopher Muzzin

2420 Riverfront Dr. | Little Rock, AR 72202 | **(469) 682-1710** | chrismuzzin1020@gmail.com

Education
August 2011 - December 2015
University of Arkansas - College of Engineering, Fayetteville, Ar - *B.S in Computer Science*

Experience

Jan 2016 - PRESENT
Dillards Inc., Little Rock, AR - *UX Designer & Front End Developer*

- Embedded in multiple agile teams working closely with back end developers, business analysts, and QA's to build consistent, usable, and logical interfaces for users. Created initial wireframes, provided updated high fidelity mockups as the project progresses, and built out applications using HTML, SCSS, and JavaScript.
- Responsible for refactoring legacy applications into new Front End technology and oversaw google tag manager / analytics to track and improve efficiency for users.

Projects

- **Dillard's Careers Site**: Admin side that sets up and posts job openings for the Dillard's Careers Site. Developed with Groovy, JQuery and Bootstrap(v3).
- **Marketing Planner**: Drag and drop calendar for the marketing and advertising team that allows them to easily schedule marketing requests. Developed with Angular JS and Bootstrap(v3).
- **eComm Set-Up**: Refactored pieces from a legacy application into a new single page UI to speed up the process for setting up items that are sold on our eCom website. Developed with Angular and Bootstrap (v4).
- **Marketing Email Creation**: Designed a new process flow for setting up an email request that is sent to Dillard's card members. Developed a step by step wizard via a single page UI using Angular JS and Bootstrap(v3).
- **Store Planning and Construction**: Complete rewrite for a legacy application that handles the setup (including inventory) for all Dillard's Stores. Developed using Angular and Bootstrap (v4).
- **Scanner App**: Ionic application to demo new technology to that could be used on new scanner guns.

Side Projects

Professional Website - https://chrismuzzin.info

Build and maintain my own personal website to practice and explore web design techniques. This site is powered by Angular, Bulma, Nodemailer, and Firebase.

 My-Spotify - https://littyspot.com

A web application that utilizes Spotify's API and demonstrates functionality found on the Spotify web player using Angular and Bulma.

Skills
- Languages: Java, C++, .NET, Groovy, Python and Web Development languages.
- JavaScript Frameworks / Libraries: Node.js, Angular JS, Angular, TypeScript, Vue JS, Ionic, and jQuery.
- CSS / Frameworks: Bootstrap, Bulma, Semantic, and CSS preprocessors (Sass, SCSS).
- Experienced with utilizing REST APIs, Front End tasking (Gulp, Webpack), and Firebase.
- Experienced with git and team foundation server.
- Knowledge of Adobe Illustrator.
